2023 SCRAP TIRE COLLECTION EVENT

The Adams-Clermont Solid Waste District will be hosting a scrap tire collection event on **Friday September 8** and **Saturday September 9, 2023** at the Clermont County Fairgrounds in Owensville. Hours of operation will be **8AM – 2PM** during both days. This event is funded by an Ohio Environmental Protection Agency grant with matching funds contributed by the Adams-Clermont Solid Waste District. Residents are encouraged to take advantage of this service to rid their property of accumulated tires which are not only unsightly, but can pose an environmental and potential health risk.

The following disposal fees will be collected in cash from the resident at the time of unloading:

\$1.00 for car/SUV/light truck/trailer/ATV tires

\$10.00 for commercial-type vehicle tires (semi tractor-trailers, dump trucks, etc.)

\$20.00 for tractor tires (must be cut in half if larger than 48" in diameter)

No additional fees will be imposed for tires that are mounted on rims, but participants should separate on-rim tires and off-rim tires in advance for ease of disposal at the drop-off site.

During the event, traffic can enter the fairgrounds at the State Route 132 gate and follow posted signs to the tire drop-off site. Residents may be responsible for unloading any tires they bring to the location.

Tires can only be accepted if they are originating from a Clermont County household, meaning tires accumulated by private companies (auto dealers or repair shops, trucking companies, etc.) during the course of their business are not allowed. A maximum of 10 tires per resident will be accepted unless prior arrangements are made with the Adams-Clermont Solid Waste District.

For additional information visit www.OEQ.net, email DSNYDER@ClermontCountyOhio.gov or call the Adams-Clermont Solid Waste District at (513)732-7744.
